results . A: this code will remove the empty
text in that cell. Sub duvarpfad() Dim
myval As String myval = "text goes here"
On Error Resume Next With
Sheets("Condas") .Cells.Replace
What:=myval, Replacement:="",
LookAt:=xlPart, _
SearchOrder:=xlByRows,
MatchCase:=False, SearchFormat:=False, _
ReplaceFormat:=False End With On Error
GoTo 0 End Sub The present invention
relates to the field of cryopreservation of
biological cells and tissues. The invention
has applications in the field of tissue
cryopreservation in medical and scientific
research, and in the field of

cryopreservation of plant cells and tissues, and in particular to cryopreservation of plant cells and tissues for use in genetic engineering and cell fusion experiments.

The invention is related to the field of freeze preservation, but is not limited to cryopreservation of plant cells. A number of methods are known for cryopreservation of cells and tissues. Freezing is considered to be the best long term storage method for biological materials, however problems have been encountered with cryopreservation of plant cells and tissues. In particular, it is known that some plant cells are killed after extended periods of time in a cryopreservation medium. It is further known 2d92ce491b
