See the software details page for the information you'll need to run the games. SimulationX for Windows XP, Windows Vista, Windows 7 Official release date: November 30, 2011. SimulationX is a set of 4X4 simulation games developed by Grégoire Carnaud, Arnaud Durgat, and Pascal J. Tabet. The first one, Pipeline, is a combination of submarine and submarine warfare games. Pipeline has been released for both Windows and Mac OS X. The Windows version is commercial and the Mac OS X version is free. Pipeline Pipeline (Windows), a 3D submarine simulator and video game for Windows XP, Vista, and Windows 7, was released on 30 November 2011. The game was developed by Grégoire Carnaud, Arnaud Durgat and Pascal J. Tabet in collaboration with Id Software, with the help of a part of the Engine Group at Id. The game was first available for testing on Steam. The full release was made on April 19, 2012. The game offers a large variety of gameplay scenarios and a good overall graphic and sound quality. Pipeline is an ocean and submarine simulation game. The player can take control of a submarine or a surface ship. The missions are divided into three categories: patrol missions, transport missions and espionage missions. More than 20 hours of training missions are included in the game, which can be used to train the player in all the aspects of submarine warfare. Pipeline Multiplayer Pipeline Multiplayer is an online multi-player game, which enables two or four players to play single player

Jan 2, 2009 . In my opinion, it's still the best flying warbird simulation for a passenger and it's flight dynamics are so good, that some of the best simulators on the.
