UuProxyAuto [32/64bit]

This program allows you to generate an unlimited number of proxy server connections in a limited time. By using this feature, you are able to connect your PC to an Internet connection through several proxies. You can easily change the maximum number of concurrent connections that your PC can support. uuProxyAuto includes a simple graphical user interface with several advanced settings. Interface: The graphical interface of the program consists of a small toolbar that includes all of the major functions and an empty field to enter the maximum number of concurrent connections that your PC can support. By default, all of the connection parameters are set to their default values and the program starts automatically when you click the Start Proxy Server button. There are three modes of operation: High speed mode: In this mode, you can set the number of concurrent connections to a very high number. You can easily control the maximum number of concurrent connections. High speed mode is recommended for a public proxy server or for use on public Wi-Fi. Simple mode: In this mode, you can set the maximum number of concurrent connections to a low number, as a compromise between speed and safety. Simple mode is recommended for use on private Wi-Fi or for the use of a personal computer. Advanced mode: In this mode, you can set the maximum number of concurrent connections to a very high number. Advanced mode is recommended for use on public Wi-Fi and for use on a proxy server. Program features: You can use the most famous web sites by connecting to them through an unlimited number of proxy servers. This program is very easy to use and requires only a few mouse clicks. You can easily create a local proxy server to provide anonymous surfing for your family or friends. The high speed mode of operation is recommended for the use on public Wi-Fi. The program is portable, so you do not need to install it on your computer. The program is very easy to use, so you can run it directly from your removable storage medium. You can use this program without modifying your system. The program does not cause any damage to your system. A default proxy is included in the package. The program is lightweight and does not cause any damage to your system. The program has no time limit, so you can use it for as long as you need. By using this program, you can easily share the Internet with friends or family members. Integrated help option Description: This program allows
