### What's New in the GetWebPics Professional Edition?

GetWebPics Professional Edition is a software application that helps users download multimedia files (pictures, videos and music) in a user-friendly environment. It sports a clean and intuitive GUI that offers quick access to all its main options. A special emphasis is put on grabbing files from the Internet by creating multiple tasks which can be later configured in terms of starting or resuming the downloading process, and opening the current URL with your default web browser. A task can be created by giving details about the name, URL, user name and password (if the site asks for authorization). For each task, you can set up restrictions, as you can make the program download only the selected file extensions, namely GIF, JPG, PNG, TIFF, PSD, PSP, BMP, SWF, ZIP, AVI, MP3, and others. Furthermore, it is possible to apply size filters for the grabbed files and make the program download files with a width and height smaller or larger than the specified value. You are required to specify a saving directory, or save the media files to the same folder where the web pages are stored. It also features a renaming option and allows users to add personal notes about each task. GetWebPics Professional Edition offers quick access to the downloaded media files. With just one click on the selected item, you can preview it in the primary panel, and perform various operations, such as copying, printing, applying wallpapers, sending emails, starting a slideshow, and others. Additional settings include the possibility to pick a default saving directory, change proxy settings, as well as specify the amount of connections, pause between connections and maximum errors for stopping the downloading process. You can also view details about the downloaded items, such as address, total size and status, as well as check the log section for successful or failed tasks. It gives statistics about the number of grabbed files and speed. In conclusion, GetWebPics Professional Edition proves to be a handy software solution that helps users grab media files for offline viewing quickly and with minimum effort. Thanks to its clean layout and useful functions, it is suitable for beginners and experts alike. GetWebPics Professional Edition Specifications: 1.2.4.3997 Software program made for users who need to grab multimedia files quickly and easily from the Internet and save them in a location of their choice.
