Open up the command window and type in the following. example: autocad.exe keygen.exe When asked for a password, type in your Autodesk password. Now the Licence number will be entered. Press enter until you see the message "Invalid Licence Key". Then press ctrl + z. Then type in the key given on the page below. 3. Select the name of the new.dat file Then save it and overwrite the current file in C:\users\user\AppData\Local\Autodesk\Autocad\2010\Extensions\. The files will be saved as a.dat file, named after the name of the product you activated. Examples You can use this key to: - make a new file called "mywip\_keygen.dat" and activate it. - make a new file called "mywip\_keygen2.dat" and activate it. - make a new file called "mywip\_keygen3.dat" and activate it. You can also use this key to: - remove the key from the program. You cannot use this key to: - activate the key "Scheduling" from the 2012 product. (It has been moved to "Scheduling 2011-2012" in the 2013 and 2014 products.) - activate the key "Layer Management" from the 2012 product. (It has been moved to "Layer Management 2011-2012" in the 2013 and 2014 products.) How to use the key for Autodesk's shared resources (backup or other files that you've downloaded from Autodesk) If you already have a copy of some of Autodesk's shared resources, you can get the licence key for Autodesk's shared resources using one of the two methods below. Method #1: If you already have a backup copy of these shared files: - from within Autodesk, go to File > Shared Resources and click the Copy button. - then open the.dat file you've just copied. - type in the licence key that appears on the Licence: prompt in the file. - type in the optional product code (Optional). - type in the Optional Product Code (Optional). - then click the OK button to create the new.dat file. -

### What's New in the?

Batch Control: Access templates in a single click. Select all the drawings you want to work on in a group and apply your changes without any manual edits. (video: 1:30 min.) Designer Workspace: Keep it safe: With the new Airwatch option, you can access, edit, and work on your drawings without exposing your files to unauthorized users. (video: 1:26 min.) See the videos at Autodesk.com AutoCAD is the industry leader in design and drafting software. The application has been a trusted solution for over 30 years, and a growing number of AutoCAD users look to our products to help them make their designs a reality. With AutoCAD 2023, we have continued to develop and refine the software based on your input. Whether you are using AutoCAD for the first time or are a longtime user, you'll find new ways to interact with your drawings and place them on the page quickly and efficiently. Whether you're creating an architectural design, drafting a family tree, or preparing a detailed 3D model, AutoCAD 2023 helps you get to your final drawings. Innovative drawing tools: Introducing the Drawing Navigator. This tool allows you to instantly zoom in to any drawing region and lock your view for accuracy. You can also choose the Drawing Navigator to view all views and section cuts in a single view. New toolbars and Ribbon: The ribbon lets you adjust your software with one click. The Ribbon Control panel lets you access, manage, and customize the tools in your drawings with a single click. New security features: More powerful security features. The newly integrated AirWatch keeps your drawings protected, even when they are open in AutoCAD. With AirWatch, all users of your drawings are restricted by default. You can easily grant and revoke access to drawings, users, features, and more. AirWatch lets you control who can access and modify the drawings you own. New collaboration features: Bring your team together. You can share a drawing file online. Access it from anywhere on the web with a simple URL. Enable a web browser for quickly editing and viewing changes made by others. Improved 2D tools: Smarter 3D modeling: Get accurate measurements with the new measurement toolbar and dial. With a simple click, you
